

GLOBAL PEOPLE'S MONETARY SYSTEM

DIVINE PLAN FOR NEW EARTH

In the beginning, there was no Monetary System
We the People were the Money.

The time has come for Humanity to establish what is rightfully ours. This plan transitions Humanity from Debt to Comfort and beyond with unlimited Abundance. This plan is an outline for the new reality that of which we have not experienced. This plan will replace that of which we have been experiencing, it is not a restructuring of what we already have. We the People have the Power to Shift and Create with unlimiting abilities as we are the Spark of the Divine.

In order to enact this Divine plan a new law is not required. We the People have the authority to implement the new system. With the majority consent of the Global People who are acting in capacity for the greater good of Humanity the Divine plan can be implemented with grace and ease. The Divine plan does not differentiate between race nor beliefs, this is an all-inclusive plan.

DIVINE PLAN FOR NEW EARTH

1. A Divine Monetary System created by the People is already available via Quantum technology. It is unlimited as God intended. The Divine Monetary System is open ended and only a transitional system. Once the other items have been instituted there will be a return to Human Society an advanced system towards the non-requirement for physical money or an exchange system. The electronic and digital distribution system for funds is already in place worldwide. We the People are the owners of this technology and we just need to exercise that right. All industry is owned together by the People and individual ownership becomes nonsensical and noncompatible with the DIVINE SYSTEM. Everything is in place to fully support and operate this system NOW, ONLY REQUIRING THE SUPPORT OF THE GLOBAL PEOPLE. Governments, politicians, past oligarchs CANNOT prevent this, for they represent less than 1% of the global population. They can assist, share, and join, or be separated by their own choice.

2. Immediate funding to all People to set up their living needs. Initial amount would be approximately \$12,000 US dollars (US Dollars is being used only for illustration as this will be a new monetary system created by the People and will be unlimited by design). A monthly amount of approximately \$6,000 would be implemented thereafter during the transition. Once the full extent of the unlimited Monetary is implemented the monthly amount is illuminated and the unlimited access to resources will take its place. Note: basic needs will be FREE upon further transition i.e., housing, food, clothing, medical, etc. THIS IS A TEMPORARY AMOUNT to assure immediate comfort, as the system rapidly evolves further into full prosperity, and to Create a directive control towards the rapid advancement for Humanity. This eliminates the fear and anxiety created by lack of monetary resources. The monthly income is conditional to a certain number of hours or value exchanged to community on a monthly, as little as 10 hours a month i.e., as a simplicity figure to demonstrate the ability and potential, as workforce becomes more reorganized (because of the quantum technology) workers are repositioned in society to essential positions in line with the rapid global advancement. People will be given a choice to do their hearts work to contribute to their local community and then the world at large.

3. Large sums of money will be distributed for humanitarian projects to begin the transformation to wholeness; opportunity zones and geographic areas that are considered in poverty, better education, rebuilding infrastructure, addressing medical deficiencies, lack of housing, healthy food distribution, etc.

4. Forgiveness of all current Debt: credit cards, taxes, mortgages, loans notes, etc. None of these financial debts will exist in the new monetary system because the old system of accounting will be dissolved. People will have access to unlimited resources so profit, loss or gain no longer have any purpose.

5. Energy and Utilities are free; phone, electricity/gas, fuel, communications, etc.

6. Personal choice for Health care, medical services and/or supplies are free.

7. Release of all suppressed technology and funding for all Health care, Medical and natural medical alternative options.

8. Administrators of funds Globally will be set up with simple programs to distribute funds quickly upon roll out of the New System and to distribute card access for All upon the surface.

9. Return to Gods Law. Only cases that involve harm to another will be addressed. i.e., because access to funds is unlimited all monetary crimes will be non-existent.

10. Land ownership: Anyone that currently owns real estate will continue to be in possession of the land, buildings, etc. All Native and Indigenous lands will be protected to those that have been occupying the land. All property currently under government protected land will be transferred to the People as a whole under the same or more stringent protection; this is to include but not exclusive of nature preserves, parks, national parks, sanctuaries, wildlife preserves both land and water, etc. All government land or water masses that are not included in the natural lands and water as listed above will be returned to the People i.e., government buildings, natural resources – water, electricity, gas, etc. The balance of the land will no longer have boundaries. People will be able to locate to geographical locations that once were prohibited due to cost. This will no longer be an issue because of free energy technology and access to unlimited funds. No invasion or intrusion, there will be a natural migration. People will be able to have their own land to be self-sufficient and not hording the land.

11. Travel is free.

12. Release and funding for suppressed technology for all sectors of creation.
